PRECIOSA scholarship will cover ONLY the 3 years regular duration. If the student will need

more time to complete the studies s/he must be aware that will have to cover all costs independently: subsistence, insurance, tuition fees and all other additional costs.

Recognition of previous studies (e.g. students already enrolled in a university programme that are willing to move at our University to complete their studies and get a UNIBO degree; or students who did attend a university programme and then leave these studies for any personal reason and want to enrol at a UNIBO degree), if applicable, may be an option and will therefore reduce the duration needed to complete the studies. Nevertheless, recognition of previous studies is a separate procedure and application, it will not be taken into consideration during the PRECIOSA application. Therefore, students will be initially accepted for the regular duration (3 years). Students can apply for the recognition of previous studies ONLY once enrolled and only if applicable. Consider that if a recognition of previous studies will be successfully carried out the PRECIOSA scholarship will be also reduced accordingly.

- **FULL MASTER:** Bachelor degree giving access to Master level studies in a study field coherent to the one you are applying for. Knowledge of the language of instruction (Italian or English, level B2) is also required. See language requirements below. Nevertheless, recognition of previous studies is a separate procedure and application, it will not be taken into consideration during the PRECIOSA application. Therefore students will be initially accepted for the regular duration (2 years). Students can apply for the recognition of previous studies **ONLY** once enrolled and only if applicable.
